Intended Audience: Commissioned Law Enforcement Officers

Prerequisite: None

Dress Code: Business Casual

Course Description:

This course is to improve the overall consistency of administration of the SFST test battery by individual police officers. During this training the current DWI problem will be described. The typical cues of vehicles in motion will be identified prior to the stop. We will identify the typical observations made during personal contact and how to describe the clues clearly and convincingly. You will learn to define and describe the Standardized Field Sobriety Tests, define nystagmus, how to distinguish between the different types and describe and properly administer the three SFSTs. We will focus on how to recognize, document, and articulate the indicators and clues of the three SFSTs while learning the limitations of the SFST. Thorough and complete documentation in report writing will be examined.
